

Activities List Tips & Tricks

On your college application you'll be asked to create a list of 8 to 10 activities you have been involved in. Does your activities list meet these criteria?

- Most significant or meaningful involvement first
- Recent activities towards the top
- Write out all acronyms
- Use "additional info" section if you need more space
- Be honest about time commitment and hours per week
- Include any leadership positions or awards
- Quantify when possible
- Don't include activities from before high school
- Be succinct in your description
- Respect the word limits
- Bonus: activities will typically involve other people!
